

**Sandia Group, Inc.**  
A New Mexico Corporation

March 3, 2008

Dear Valued Wholesaler,

Sandia Group, Inc. is pleased to announce the addition of Pro1IAQ to our HVAC product line for New Mexico and El Paso, Texas. Pro1 strives to improve your Indoor Air Quality or IAQ through producing and designing a professional line of products. Pro1IAQ's thermostats use common sense designs to make your job easier: 1) Display Size – Pro1IAQ boasts the largest displays for the money. 2) One Size Thermostats – All Pro1IAQ thermostats have the same size footprint, so you'll never have to worry about wall marks left by old designs. Upgrades are also easy, just snap on the new model without replacing the sub-base. 3) Badge System – Private labeling your thermostats is easy. Our innovative badge is universal for all Pro1 models. Your customized badge will snap on the thermostat of your choice.

Our products feature:

- Largest display at any given price point
- X-Large, easy-to-read characters
- Universal sub-base system that allows for upgrading without removing the sub-base
- Glow in the dark light button for easy viewing in low light conditions
- Simple set program with icons that guide the user. A great value, compare our features to the competition and save
- Easy and intuitive installer setup
- Color coded terminal blocks to help identify terminals in low light conditions
- Relay switching action for reliability and compatibility
- Universal private label badge reduces costly inventory
- Great technical support, based in the USA and led by a contractor
- All Pro1 products are sold exclusively to the Professional Heating and Cooling industry

Pro1 also carries media air cleaner cabinets and replacement filters and UV lights. The media cleaners are offered in the MERV 8 or MERV 12 efficiency. Pro1 UV light is continuous on the 24V model with a 15" bulb.

Our Sandia Group Account Managers will be in touch soon to discuss this fantastic new line with you.
